At this time I can only transfer from iPhone to iPad Oct 25, 2017 iCloud lets you keep your GarageBand for iOS songs up to date across all of your iOS devices, and your GarageBand for Mac songs up to date across all of your Macs.. Apr 25, 2012 In GarageBand with your view of all songs showing tap the Edit button, then the song you want to export, then the export arrow icon at the top left, Share Song Via iTunes GarageBand.

You can also start creating a song on your iPhone, iPad, or iPod touch, and then import it to your Mac using iCloud.. How can I transfer the music between them? I have enabled iCloud with iPad and iPhone but cannot understand how to get the music from there to OS X? Now before iOS8 it would transfer from my iPad to Mac without a problem.. Now connect your iPad to iTunes, select the Apps tab, scroll down to the File Sharing area, locate GarageBand within that, and copy your project out to your Mac.
