Effects of the new cholecystokinin-receptor antagonist Boc-CCK-4-D-tryptophan on the levels of cholecystokinin in the rat intestine. The new CCK-receptor antagonist Boc-CCK-4-D-tryptophan (CKK4D) blocks both the biological activity of CCK-8 and the binding of 125I-labelled CCK-8 to the CCK-receptor of isolated rat pancreatic acini. When administered per os to anaesthetized rats, CKK4D inhibits the effects of CCK-8 on gallbladder volume and on pancreatic amylase secretion. The aim of the present study was to assess the effect of the binding of 125I-labelled CKK4D to the CCK-receptor of the rat jejunum and the duodenum on the in vivo release of CCK. The disappearance of 125I-labelled CKK4D from the intestinal loops of anaesthetized rats was measured at intervals. The release of endogenous CCK and of CCK

---

in segments of the small intestine was measured by radioimmunoassay after an intravenous injection of the hormone. The disappearance of <sup>125</sup>I-labelled CKK4D from the jejunum was biphasic with a fast component and a slow component, while the disappearance from the duodenum was biexponential. The disappearance rate of CKK4D was increased 2 h after the administration of CKK4D at a dose of 30 mg kg<sup>-1</sup> body weight. This dose of CKK4D also significantly decreased the levels of CCK in both jejunum and duodenum. These results indicate that CKK4D binds to the CCK-receptor of the rat small intestine. They also suggest that CCK can be released from this receptor after administration of CKK4D. Surya Sen Surya Sen (born 17 November 1969) is a Telugu television actor. He has been an actor since the 1990s and was a contestant on the 2000 edition of the reality show, Bigg Boss. He has appeared in several films like Chaduvukunna Thalladu, Sindh 82157476af
